The included vendors do not indicate an endorsement by the management company.

As a reminder, if your residence is served by a septic system, we need your help to keep it in top working condition. The following handy tips will save you the needless inconvenience and exposure of sewer backup or failure.

Please do not put the following items down the drain or toilet:

- Grease
- Plastic, latex or rubber of any kind
- Feminine hygiene materials
- Hair – please put hair from bathroom drains or brushes into the garbage, not the toilet
- Paper wrappers or paper materials other than toilet paper
- Toxic or hazardous chemicals
- Septic tank additives and/or cleaners

Important Reminder \ Notice:

Residents must use trash receptacles\cans. Care is to be taken in carrying trash to receptacles. Marring and\or staining of all surfaces must be avoided; spilling liquids, food products, cleaning agents and other components in all exterior areas is not allowed. Trash must be placed in plastic garbage bags that are securely fastened to avoid spillage. Refuse is NOT to be left outside of the trash receptacle or at any other part of the property. Empty boxes must be broken down and disposed of.

If trash is included in your monthly rent payment, your lease agreement calls for 35 gallons of trash maximum per week.
